

Hydrant Flushing Notice

The City of Kewaunee Water Department will be flushing hydrants from Monday, September 28 through Friday, October 23, 2020. This is done in order to reduce and remove the accumulation of rust and iron in the city's water main distribution system. The flushing may cause discolored water in your system. This discolored water is bacteriologically safe and will not harm you.

City residents should check their water supply before engaging in any work that could be affected by the City's flushing of hydrants. Your cooperation and understanding during water main flushing is greatly appreciated. If you have any questions please call City Hall at 920-388-5000.
