Press Release

FOR IMMEDIATE RELEASE Contact: Mayor Sandi Christman

2/28/20

River Road Project

As you may know, the River Project is nearly completed. New potable water, sanitary sewer and storm water services have been installed along with new curb, gutter and sidewalks. A base course of asphalt has been laid-down. In the spring and early summer, we anticipate performing final grass seeding. We will also put down the final course of asphalt. Waiting over the winter season to put in the final course of asphalt should allow the road to settle; thereby ensuring the final asphalt course is very smooth.

Further good news is that the City applied for and received a grant, which will save the City approximately \$19,000 over the next several years. The City has taken out a loan to cover the cost of the River Road Project. The City applied to the Clean Water Fund for an interest rate subsidy for the potable water main replacement portion of that loan. The City of Kewaunee will be subsidized the difference between 4.0% interest and 2.65% interest of the loan amount. The cost savings over ten years will be \$18,968.54. While this not a huge amount of money, it represents a cost savings nonetheless. I want you to know that your elected officials are working diligently to save every dollar available.

If you have any questions, you can contact Mayor Christman, at schristman@cityofkewaunee.org or by calling 920-388-5000.
